Dear MCC Community:

A phishing e-mail is circulating in MCC mailboxes that contains a link to malicious software. The subject of the message is "**Fw: Document Shared with you: "Evaluation.docx"**" and contains a virus payload. The file purports to be shared by former college president Dr. Mike Kearns, who hasn't been at the college for 2 years. **Do not click any links in the message or open any attached documents.** If you have done so please notify the IT department **immediately** so that we can take action to mitigate the damage.

Should you have any questions or concerns please don't hesitate to contact me directly.

Thanks,
Mark
