Dear MCC Community,

The Lake Havasu Campus is currently experiencing intermittent service outages to the link that provides internet and network service to that campus. The issue originates with the uplink provide for our own service provider, WeCom, and both providers are aware of the issue that is affecting multiple clients. We are working with the vendor to correct the issue as quickly as possible. There is no estimated return to service at this time. Should you have any questions, please contact me directly.

Thanks,
Mark
