<i>Director of Curriculum and Assessment</i>	<i>Mitzi Esgro</i>
<i>Student Services Technician</i>	<i>Mike Casson</i>

Conducts its work under the auspices of the College President and within District policies and procedures.

In specific, serves the following purposes:

1. Support MCC's strategic plan objectives by developing metrics, providing and analyzing data, evaluating project outcomes, and recommending changes based on data, metrics and outcomes.
2. Foster positive working relationships between functional areas and those who provide reporting and programming support, data mining and analysis to promote collaboration.
3. Recommend ways to coordinate and integrate technical system-generated data to better meet the needs of the institution and promote successful strategy specific outcomes.
4. Collaborate with personnel from other areas of the college and work on individual assigned projects as appropriate.
5. Support strategies and objectives of the College Strategic Plan and accommodate directives from the Strategic Plan Alignment Committee (SPAC).
