Conducts its work under the auspices of the College President and within District policies and procedures.

In specific, serves the following purposes:

1. Champions the College's mission and HLC criteria; articulates, translates, and communicates these to College staff using multiple methods and multiple outlets.
2. Oversee the development of an assurance argument that affirms the institution's overall academic quality and financial sustainability and integrity.
3. Review evidence; substantiate the facts and arguments presented in its institutional narrative; explain any nuances specific to the institution.
4. Develop and implement mitigation plans, if necessary, to strengthen the institution's overall record of compliance with HLC's requirements

Strategic Plan Alignment:

HLC Criterion Cross-reference: All

Institutional Documents Responsibility: Assurance Argument
