

Bookshare – Accessible Books for Individuals with Disabilities

<https://www.bookshare.org/cms/>

Bookshare.org is an online resource that provides books (including some college textbooks) in alternate formats to increase access to reading materials for individuals with disabilities and reading barriers.

Bookshare is free to US students with qualifying reading barriers. For a free account when joining bookshare a member must provide documentation of a print disability that severely inhibits or prevents the member from reading traditional print materials. Visit [Who Qualifies?](#) to learn more.
