

Rewordify

[Rewordify](#) is a free online resource that replaces higher-level vocabulary with words that are easier to understand. This free use website can help students build reading comprehension and vocabulary by replacing and highlighting difficult words. Users can personalize settings to their level preferences, choice of style for rewording, and color options. In addition, the website also houses a library of available works of classic literature and public documents.

Rewordify can be access by any browser and does require internet connection to access. Visit [Rewordify](#) to learn more. See some examples below.
