

**GUIDED PATHWAY**

The following sequence is the suggested pathway to complete the degree in two years. This sequence is based on satisfaction of all basic skills requirements and prerequisites and presumes a fall start date. An individual's program may vary depending on transfer institution, career objectives, or individual needs. See your academic advisor for other options and to monitor your progress.

*Program Name: Nursing, AAS – Advanced Placement Option for Paramedics*

---

*Program Learning Outcomes (SLOs):*

1. Provide holistic care that recognizes an individual's preferences, values, and needs and respects the client or designee as a full partner in providing compassionate, coordinated, age and culturally appropriate, safe, and effective care. (1, 4)
2. Demonstrate accountability for the delivery of standard-based nursing care that is consistent with moral, altruistic, legal, ethical, regulatory, and humanistic principles. (3, 5)
3. Transform and influence behaviors of individuals and groups to promote, to establish and to achieve shared goals determined within their settings. Nurses will advance within their leadership abilities in collaborative inter-professional efforts and for implementing change. (2, 4, 5)
4. Demonstrate an awareness of and responsiveness to the larger context of the health care system, and will demonstrate the ability to effectively call on microsystem resources to provide care that is of optimal quality and value. (2, 3, 5)
5. Use information and technology to communicate, manage knowledge, mitigate error, and support decision-making. (3, 5, 6)
6. Interact effectively with clients, families, and colleagues, fostering mutual respect and shared decision making, to enhance patient satisfaction and health outcomes. (1, 2, 4)
7. Function effectively within nursing and interdisciplinary teams, fostering open communication, mutual respect, shared decision making, team learning and development. (1, 2, 4)
8. Minimize risk of harm to clients and providers through both system effectiveness and individual performance. (3,5)
9. Use data to monitor the outcomes of care processes and use improvement methods to design and test changes to continuously improve the quality and safety of health care systems. (2, 3, 5, 6)
10. Integrate the best evidence available using nursing expertise and the values and preferences of individuals, families and communities who are served by health care. (1, 2, 4, 5)
