

The college shall comply with all federal and state regulations regarding hazardous materials (ARS 15-1445).

The college shall, in compliance with the Occupational Safety and Health Act of 1987, establish and maintain a comprehensive hazardous materials communication program which shall cover container labeling, material safety data sheets, and employee training. The purpose of this communication program is to ensure that employees are adequately informed of the risks of chemicals in their workplace, able to identify the physical and health hazards of chemicals, trained in proper work practices and emergency procedures, and familiar with the provisions of the hazardous materials communication program.

Date of Adoption: Adoption of Manual
