

Apply Credits Today – New Opportunities Waiting.

If you started a college degree or certificate program, you should know that many of your past college credits can still apply to a degree or certificate today.

Academic advisors at MCC will help you obtain previous transcripts and evaluate them, explore careers you can prepare for at MCC, and apply your past credits to the course requirements for your degree or certificate from MCC.

Individuals who have copies of their transcripts can stop by during regular business hours and discuss opportunities with an advisor. For those who need transcripts, the advisors will go online with you or assist with toll-free calls to your previous colleges to order official and/or unofficial transcripts.

Unofficial transcripts are adequate for determining what credits are likely to apply and to what program of study. Once you are ready to enroll, you will need to have official transcripts sent directly to the Office of the Registrar who will analyze the course descriptions from their previous colleges and apply all eligible credits to the students' MCC records.

For more information, stop by the enrollment services area at the campus near you. In Bullhead City, the enrollment services department is in Building 200 at 3400 Highway 95, telephone is 928.704.7799.
