

May 4, 2020

Dear MCC Students:

The health of our students and employees remains our top priority. We understand that COVID-19 has affected all aspects of our lives and want to assure everyone that providing students with opportunities to meet their educational goals safely is central to the decisions that are being made. MCC employees are working together to bring people back to the campuses in a measured and careful manner.

Mohave Community College has decided to offer summer courses online, with some lab activities on each of the campuses. The College will safeguard students through social distancing by limiting group sizes and by requiring all staff and students to wear masks covering the nose and mouth at all times. Students who need to make up lab sessions from the Spring Semester should call to arrange appointments with their instructors. Instructors will arrange make-up sessions beginning May 26. Please continue to check Schoology and your college email for updates. Instructors will communicate with you so that you are prepared to resume hands-on learning.

Please note that access to campus buildings will be limited to the lab space and restroom facilities in that building or next closest building. MCC campuses will not be open to the public at this time. All other college services such as advising, financial aid assistance, tutoring, and library services will continue to be offered remotely. To access remote services call MCC Connect at 866-664-2832.

During this time MCC procedures regarding due dates and attendance will be flexible and follow the CDC guidelines for prevention of the spread of infectious diseases. All instructors will make accommodations for illness. Please do not come to campus if you are ill, instead contact your instructor to let them know if you are unable to complete assignments or come to lab meetings.

Additionally, students and employees are asked to self-screen for symptoms of illness. The CDC Self-Checker can provide guidance in assessing symptoms. Please do not come to campus if you are experiencing any COVID-19 symptoms. MCC continues to provide a safe and clean campus for our students and employees. Infection prevention measures have been implemented with cleaning and sanitation practices recommended by the CDC.

Mohave Community College will continue to monitor COVID-19 updates and work with community partners to keep you informed and to maintain a safe and healthy campus. We encourage everyone to visit <https://www.mohave.edu/coronavirus> for updates about campus information on public health, student services, and any corresponding implications for on-campus activities, events, and classes. Call MCC Connect at 866-664-2832 with any questions or concerns.

I also want to say congratulations to our 2020 MCC graduates. I encourage everyone to watch the Virtual 2020 Graduates Recognition Ceremony on the college Facebook page and YouTube channel on May 15 at 3:00 p.m. We have more news about that, and other planned events, on the Mohave Wire at <https://www.mohave.edu/MohaveWire>.

Sincerely,

Dr. Stacy Klippenstein
