

The College Strategic Planning team conducted a college-wide Student Experience Workshop on Nov. 7, 2019.

The workshop covered the strategic planning process and covered trends currently happening in higher education across the country. Students from all campuses worked with college employees to help develop an ideal student experience at MCC. Results from the workshop will drive future strategic planning activities.

You can view a recording of the workshop Kickoff and Overview of the Planning Process, Trends in Higher Education, and the Student Experience Introduction by clicking here > [Mohave Community College YouTube Channel](#).
