The facilitation of testing accommodations is the responsibility of the instructor. Extended testing time accommodations should be facilitated by the instructor automatically for all tests administrator via the Learning Module System (LMS) after receiving the student's Accommodation Request Form (ARF) notification. Students do **not** have to request the use of extended time for each test. Training requests or questions regarding how to facilitate extended testing time in the Learning Module System (LMS) should be forwarded to the Center for Excellence in Learning and Teaching (CELT) department.

For exams not administered via the LMS, instructors should facilitate testing accommodations (including extended testing time) before, during, or after the scheduled class time. If a student has an accommodation to test in a distraction reduced environment or is unable to meet with the instructor due to scheduling conflicts, the student may request to use the testing center as necessary.

Steps to request use of the testing center for a student with approved accommodation.

1. Student must schedule an appointment with the Office Technician for Student Success and Retention by phone at 928-757-0831 or email to [MCasson@mohave.edu](mailto:MCasson@mohave.edu)
2. Student will provide instructor with notice of scheduled testing time/location and a copy of the testing accommodation form with the student portion completed.
3. Instructor will provide test and copy of the testing accommodation form with the student and instructor portions completed to the appropriate testing center.
4. Testing advisor will return completed exam to instructor and the completed testing accommodation form to the Compliance Specialist.

**Late Arrivals:** If a student is more than 30 minutes late for a test, the testing center may not be able to administer the test. It is the student's responsibility to communicate with the instructor and office technician to reschedule the appointment.

**Ethics/Cheating:** Students are expected to complete tests in a fair and ethical manner. The testing center adheres to Mohave Community College's Student Honor Code regarding cheating (see the Student Code of Conduct).

Questions or concerns about the use or implementation of testing accommodations should be forwarded to the Office of Compliance at [Access@mohave.edu](mailto:Access@mohave.edu) or by phone at 928-758-1405
