Clearing your Browser Cache

In Internet Explorer - Clearing Temporary Internet files
(Log out of ANGEL and close tab before clearing the cache)

1. Internet options
2. Delete temporary files, history, cookies, saved passwords, and web form information.
3. Delete browsing history on exit
4. Delete temporary files, history, cookies, saved passwords, and web form information.
5. Delete browsing history on exit

**NOTE:**
Steps 4 & 5 should only be used if steps 1-3 do not solve the issue. If a user still experiences issue, you can suggest they use an “InPrivate Browsing” window.
