Per the JRCERT "Five-year average Credentialing Examination Pass Rate-is defined as the number of graduates who pass, on first attempt, the American Registry of Radiologic Technologists (ARRT) examination within six months of graduation, or an unrestricted state licensing examination compared with the number of graduates who take the examination within six months of graduation."

Job Placement Rates**

YEAR	# of graduates who actively sought employment	# of graduates who found employment within 12 months of graduation	Percentage
2014	13	13	100%
2015	11	11	100%
2016	10	8	80%
2017	12	12	100%
2018	10	10	100%
2019	14	14	100%

*The JRCERT has defined "not actively seeking employment" as:
 1) Graduate fails to communicate regarding employment status"...

**Per the JRCERT "Since Credentialing Examination Pass Rate and Job Placement Rate are based on a five-year rolling average, a value of "0" may indicate that the program has not been in existence for the full five-year period and therefore has not had the opportunity to accumulate five (5) years of data." Since the MCC Radiologic Technology Program does not yet have 5 years of data to compile, the Program lists the actual Credentialing Examination Pass Rate and Job Placement Rate on the College website. This procedure allows prospective students to review this data.
